

COOPERATIVE EUROPEAN GRAPEVINE MOTH (EGVM) QUARANTINE PROJECT COMPLIANCE AGREEMENT for use with Master Permit QC 1269

EXHIBIT 1269 A- GROWER/PRODUCER/VINEYARD MANAGER: **Bulk Grapes For Crush**

Provisions for Intrastate Movement of Bulk Grapes for Crush Produced Inside the EGVM State Interior Quarantine Area

Establishment shall only move regulated articles **within or from** the area quarantined for EGVM when complying with *all* the following:

- 1) Ensure the **harvester*** is operating in accordance with Master Permit QC 1269 under compliance with the Project.
- 2) Ensure bulk grapes for crush are transported by a **hauler*** operating in accordance with Master Permit QC 1269 under compliance with the Project.
- 3) Ensure bulk grapes for crush are destined to a **receiver*** operating in accordance with Master Permit QC 1269 under compliance with the Project and/or the receiving County Agricultural Commissioner.
- 4) Unfermented pomace (solid remnants of grapes after pressing, which contains the skins, pulp, seeds, and stems of the fruit) is regulated as bulk grapes. Unfermented pomace not handled in a manner approved for bulk grapes should be treated as green waste.
- 5) For shipments destined to **receivers*** located outside the quarantine area, Establishment must notify the receiving County Agricultural Commissioner at least 24 hours prior to transport. A "Notification of Delivery" form may be accessed online at: http://www.cdfa.ca.gov/phpps/PE/InteriorExclusion/egvm_quarantine.html
- 6) Ensure all equipment (bins, barrels, machinery, gondolas, etc.) used for vineyard maintenance and harvesting is thoroughly cleaned of all host material and debris year-round *and* prior to leaving the growing premise.
- 7) No growing equipment (such as stakes and poles) may be removed from the growing premise unless the equipment:
 - a) has been stored on the property no less than 60 feet away from any EGVM host material for a minimum of nine months prior to relocation, or
 - b) is going directly to a landfill located **within** the quarantine area, or
 - c) is handled in a method approved by the Project (see "special instructions" below).
- 8) Ensure all **vineyard planting and removal*** is conducted by an establishment under compliance with the Project.
- 9) Green waste includes culled or discarded fruit, fruit skins, leaves/branches, stems, vines, foliage, grape spurs and canes, unfermented pomace, winery and harvesting waste, home garden waste, grass clippings, space trimmings, weeds or other vegetative material, etc. All green waste should be handled as prescribed in Appendix 1 or as specified below (see "special instructions"). **Appendix 1 is available online at:**
http://www.cdfa.ca.gov/phpps/PE/InteriorExclusion/egvm_quarantine.html
- 10) Samples requiring **Brix analysis** by a lab located **inside** the EGVM quarantine area must be shipped to an Approved Lab (Form 66-105) **or** shipped in accordance with **Master Permit 1308*** to a lab operating in accordance with **Master Permit 1308***.
- 11) Samples requiring **Brix analysis** by a lab located **outside** the EGVM quarantine area must be shipped to an Approved Lab (66-105).

Failure to comply with stipulations outlined above may result in civil penalties pursuant to California Food and Agricultural Code Section 5705 and/or revocation of this Agreement.

EXHIBIT 1269 A- GROWER/PRODUCER/VINEYARD MANAGER: **Bulk Grapes For Crush**

- 12) Samples of regulated plants or plant parts requiring **destructive lab analysis** (such as pesticide residue, nutrient or mineral analysis) must be submitted to an Approved Lab (66-105) located **inside** or **outside** the EGVM quarantine area.
- 13) Samples of regulated plants or plant parts requiring **disease/pest research or diagnostics** must be submitted to a lab with a valid State plant pest permit (66-026) and samples may be:
 - a) collected and moved by a lab employee with a copy of the permit in their possession if authorized by the permit,
or
 - b) collected and shipped in accordance with **Master Permit QC 1308***.
- 14) Maintain records of each shipment from and within the EGVM state interior quarantine for a period of two years and make those records available to the Project upon request.
- 15) Ensure all employees receive training to be compliant with all specifications of this compliance agreement exhibit.

***Project approved harvesters, haulers, receivers, planting and removal establishments and establishments operating in accordance with Master Permit QC 1269 and 1308 can be verified online at:**
http://www.cdfa.ca.gov/phpps/PE/InteriorExclusion/egvm_quarantine.html

Shipments found to be in violation of the above stipulations are subject to being held, rejected, destroyed, or subject to other prescribed actions at the discretion of the Project.
